

It's Time to Make the Switch to Next-Generation Neo[®]450 Stereolithography.

6 Reasons to Upgrade to the Neo[®]450

Superior Surface Finish

Achieve precision with up to 50% less labor and time for patterns, tools, and prototypes.

High Flexibility to Suit Demands

Switch multiple vats in one system. Also build small intricate parts in HD and small to medium parts in SD, all on the same print and the same platform.

High Uptime & Yield

Designed by engineers for engineers, the Neo450 showcases a generous 17.72"x17.72"x15.75" build platform. Neo's engineering excellence ensures reliability and maximum productivity.

Versatile Applications

Explore limitless options with an open material system using any commercially available 355 nm resin.

Intuitive Software

Easily perform standard build operations, monitor prints, access detailed build reports and more.

Global Service & Support

Trust Stratasys-backed assistance in 22 countries and major markets.

Save up to 25%
on a trade-in of your legacy
Stratasys Polyjet printer.

Build high-quality parts with superior surface quality, accuracy and detail on an open material system.

Valid for POs received and systems shipped between 01-Jan, 2024 and 31-Mar, 2024

Not to be combined with any other offer. No substitutions. No additional discounts allowed on this promotion.
